

## IMPORTANT MESSAGE

How you can help us during repairs visits.

The Council encourage all tenants to look after their properties, keeping them clean, tidy and clear of rubbish. A particular plea is being made for tenants to ensure that their properties are tidy and free from obstructions when operatives are visiting your property to carry out work. Please try to ensure that your property is tidied up, so that the room and route to the area of work is as clear as possible.

### WARNING

**If there are obstructions that make the repair job more difficult or impossible for our Team then you may be asked to clear the area before operatives start the job or you may have to make another appointment for another time when you have moved the obstruction(s).**

**FOR FURTHER INFORMATION PLEASE
