

## Biodiversity Net Gain (BNG) Self-Assessment Form

(Full Permission, Outline Permission, Listed Building Consent, Permission in Principle)

Planning	reference	(for
office us	٥).	

	To be completed by the Applicant									
Date										
Development site										
address										
Description of										
development										
Applicant's name and address		Agent's name and address								
Has this checklist been completed or	checke	ed by a	suitably		Yes					
qualified/experienced ecologist				No						
For all applications halisyed to be a		40 4b0		l biodisson						
For all applications believed to be s condition, please complete the biod	_				Sity gain					
condition, please complete the bloc	IIVEISI	y yanı	illioilliation ioili	i below.						
Biodiversity gain information*			Biodiversity gain information*							
Please answer all questions Yes	Yes	No								
or No by marking the		140	Please explain							
			state if other in							
appropriate box against each		110								
appropriate box against each question		140	state if other in							
appropriate box against each question  1) Is the application supported by			state if other in							
appropriate box against each question  1) Is the application supported by a Preliminary Ecological			state if other in							
appropriate box against each question  1) Is the application supported by a Preliminary Ecological Appraisal or Ecological Impact			state if other in							
appropriate box against each question  1) Is the application supported by a Preliminary Ecological Appraisal or Ecological Impact Assessment?			state if other in							
appropriate box against each question  1) Is the application supported by a Preliminary Ecological Appraisal or Ecological Impact Assessment?  2) Has a Biodiversity			state if other in							
appropriate box against each question  1) Is the application supported by a Preliminary Ecological Appraisal or Ecological Impact Assessment?  2) Has a Biodiversity Statement/BNG Design Stage			state if other in							
appropriate box against each question  1) Is the application supported by a Preliminary Ecological Appraisal or Ecological Impact Assessment?  2) Has a Biodiversity Statement/BNG Design Stage Report been provided?			state if other in							
appropriate box against each question  1) Is the application supported by a Preliminary Ecological Appraisal or Ecological Impact Assessment?  2) Has a Biodiversity Statement/BNG Design Stage Report been provided?  3) Has a completed statutory			state if other in							
appropriate box against each question  1) Is the application supported by a Preliminary Ecological Appraisal or Ecological Impact Assessment?  2) Has a Biodiversity Statement/BNG Design Stage Report been provided?			state if other in							
appropriate box against each question  1) Is the application supported by a Preliminary Ecological Appraisal or Ecological Impact Assessment?  2) Has a Biodiversity Statement/BNG Design Stage Report been provided?  3) Has a completed statutory metric calculation tool showing biodiversity value of predevelopment on-site habitat,			state if other in							
appropriate box against each question  1) Is the application supported by a Preliminary Ecological Appraisal or Ecological Impact Assessment?  2) Has a Biodiversity Statement/BNG Design Stage Report been provided?  3) Has a completed statutory metric calculation tool showing biodiversity value of predevelopment on-site habitat, draft post-development on-site			state if other in							
appropriate box against each question  1) Is the application supported by a Preliminary Ecological Appraisal or Ecological Impact Assessment?  2) Has a Biodiversity Statement/BNG Design Stage Report been provided?  3) Has a completed statutory metric calculation tool showing biodiversity value of predevelopment on-site habitat, draft post-development on-site habitat and/or draft baseline			state if other in							
appropriate box against each question  1) Is the application supported by a Preliminary Ecological Appraisal or Ecological Impact Assessment?  2) Has a Biodiversity Statement/BNG Design Stage Report been provided?  3) Has a completed statutory metric calculation tool showing biodiversity value of predevelopment on-site habitat, draft post-development on-site			state if other in							

4) Have plans/maps of on-site pre- and post-development habitats been supplied, including QGIS- compatible files?		
5) Have details of any proposed off-site enhancement, arrangements for securing long-term management of significant on-site and all off-site BNG and the requirement for purchase of any statutory credits been provided?		
6) Is a draft Habitat Management and Monitoring Plan required, and if so, has it been supplied?		
7) Is a draft heads of terms for a S106 required, and if so, has it been supplied?		

<sup>\*</sup> Biodiversity gain information required as detailed in the Local Validation Checklist and within the Delivering Biodiversity Enhancement and Net Gain in Cannock Chase District Guidance Note. If this information is not provided, the application may be considered invalid.
