

Part B: Representation Form

Please complete a separate **Part B Representation Form** (this part) for each representation that you would like to make. One **Part A Representation Form** must be enclosed with your **Part B Representation Form(s)**. We have also published a separate **Guidance Note** to explain the terms used and to assist in making effective representations.

Part B: Representation

Name and Organisation:	Keith Dixon, Planet Earth
------------------------	---------------------------

Q1. To which Main Modification (MM) does this representation relate?

MM:	PMM4, &c
-----	----------

Q2. Do you consider the Main Modification is:

A. Legally compliant Yes: ☒ No: ☐

B. Sound Yes: ☐ No: ☒

(Please tick as appropriate).

Q3. Please give details of why you consider the Main Modification is or is not legally compliant or sound. Please be as precise as possible.

Your representation should relate only to the Proposed Main Modifications.

You have deleted in this modification and throughout all uses of “net zero”. This is unsound on the grounds that there is an abundance of scientific evidence to infer that without net zero, or controlling carbon emissions to prevent further global warming, there will be little point to the planning you are indulging in because human and other life will be so disrupted. At the very least, high ground such as Cannock Chase will be inundated with humans and other land animals seeking refuge from low-lying coastal areas and adjacent river basins inundated by the sea or whose fresh water supplies are otherwise compromised.

Q4. Please set out the change(s) to the Main Modification that you consider necessary to make it legally compliant and sound, in respect of legal compliance or soundness matters you have identified at Q.3 above. You will need to say why each change will make the Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible. If you support the modification, please skip this question.

Please reinstate the words “net zero” throughout the plan, with any consequent modifications which are relevant.

Q5. Do you have any comments on the Sustainability Appraisal, Habitats Regulations Assessment or Policies Map changes in respect of this particular Main Modification. Please comment in the box below.

As far as I can see, net zero seems to have been removed from the MOD 4 and MOD 5 documents, and so should be reinstated.

Please note: In your representation you should provide succinctly all the evidence and supporting information necessary to support your representation and your suggested modification(s). You should not assume that you will have a further opportunity to make submissions.
