

How Bee Friendly are you?

Launched in 2022, the Bee Friendly Trust's Bee Friendly Awards celebrate the cities, towns, villages, community groups and more that are working hard to transform neglected spaces into bee-friendly wildlife havens.

Perhaps you've planted verges with wildflowers, championed guerilla planting or installed bug hotels outside the library. If you have a passion for protecting pollinators, you could be eligible for a Bee Friendly Award.

Bee Friendly Award winners are announced annually on World Bee Day - so why not start preparing your application now. Full details of the requirements, how to apply plus inspiration on how to be Bee Friendly can be found at beefriendlytrust.org

The Bee Friendly Trust is a charity that creates wildlife spaces where bees, other pollinating insects and myriad wildlife can thrive.
