

All elements are likely to have a positive impact on each of the environmental, social, and economic aspects of sustainability. The plan will develop a baseline in each of the areas and set relevant KPIs. At this stage it is not helpful to set 'generic' performance levels in abstract until further work has been undertaken to ensure a balanced approach. The aspiration to achieve the highest performance possible within the design and commercial space of schemer delivery.

The People and Place Sustainability Plan will be completed following the funding submission and will remain a live design document through the preparation of the planning application and detailed design and construction thereafter. It can also be used as part of the monitoring and evaluation of the scheme and regeneration project. As part of the business case submission a draft monitoring and evaluation framework has been prepared and this includes sustainability indicators for outcomes and impacts.

TETRA TECH

Quay West at MediaCityUK, Trafford Wharf Road, Trafford Park, Manchester,
M17 1HH
